Mission

Blossom IDD is a place where adults with intellectual and developmental disabilities (IDD) can receive the resources they need to live a full, independent life in the community.

Giving Opportunities

Blossom IDD is solely running off local and individual donations. So any financial donation is always greatly appreciated. In addition to this, if someone has a special talent, unique community based environment that would be appropriate for a group activity, or any other niche they could contribute to Blossom IDD, we are always willing to collaborate and think outside of the box!

Volunteer Opportunities

Blossom IDD has a variety of volunteer opportunities. First and foremost are at our bi-monthly garden parties in the community and at our PIGments collaborative program (which is also twice a month at TSU, Cedarburg). We are always looking for individuals to join us on our travel experiences with community members with IDD. Lastly, at our local festivals, various fundraising events, and our major annual fundraiser, we are always in need of volunteers to support and promote Blossom IDD.

Programs and Offerings

1. Create community through connections. This is done by connecting individuals with IDD to their local community happenings. Along with that, Blossom IDD connects individuals with IDD with bi-monthly "Garden Parties" to get together in the community with friends. As of today, we have a PIGments Program twice a month, which is a collaboration between The Student Union, Mel's Charities, and Blossom IDD.
2. Advocate for expanded awareness for all. We advocate for all families and individuals with IDD to feel they have access to the information they need and that we are there to advocate for them and with them.
3. Share true and trusted resources. When individuals end their free and appropriate public education (FAPE), often times the supports and guidance end, as well. Families struggle to find the resources they need and are unsure which resources can be trusted. Blossom IDD supports in this area.
4. Design accessible travel experiences. We at Blossom IDD believe that individuals can flourish and grow so much through travel (independent from their families). Learning and growing in skills such as problem solving, independent living, time management, money management, and more, we design experiences that support individuals in exploring with their peers.
5. Collaborate on comprehensive life planning. Life is not just about work or having a social life, it encompasses so much more. Blossom IDD works with families and individuals with ensure they are living life to the fullest in all areas.
